2023 Statewide Community Needs Assessment

The Community Needs Assessment is a systematic process used to gather and analyze information about the needs and challenges of communities. These assessments are used in various fields, including public health, social services, urban planning, education, and economic development. They play a crucial role in ensuring that community resources are directed toward the most pressing issues and that community members' voices are heard in the decision-making process, ultimately leading to improved quality of life for the community as a whole.

Community Action Agencies conduct needs assessments every three years as a requirement for the Community Services Block Grant (CSBG) which supports community-based anti-poverty programs. The primary purpose of the study is to better understand the current conditions and priorities of a community so that local action plans can be developed and community resources/services can be allocated effectively to address those needs.

Statewide Specific Needs By Population Type

Households Experiencing Poverty

1. **Rental Assistance**
2. **Food**
3. **Dental Insurance/Affordable Dental Care**

Households Not Experiencing Poverty

1. **Mental Health Services**
2. **Recreational Activities**
3. **Safe Neighborhoods, Sidewalks, Parks**

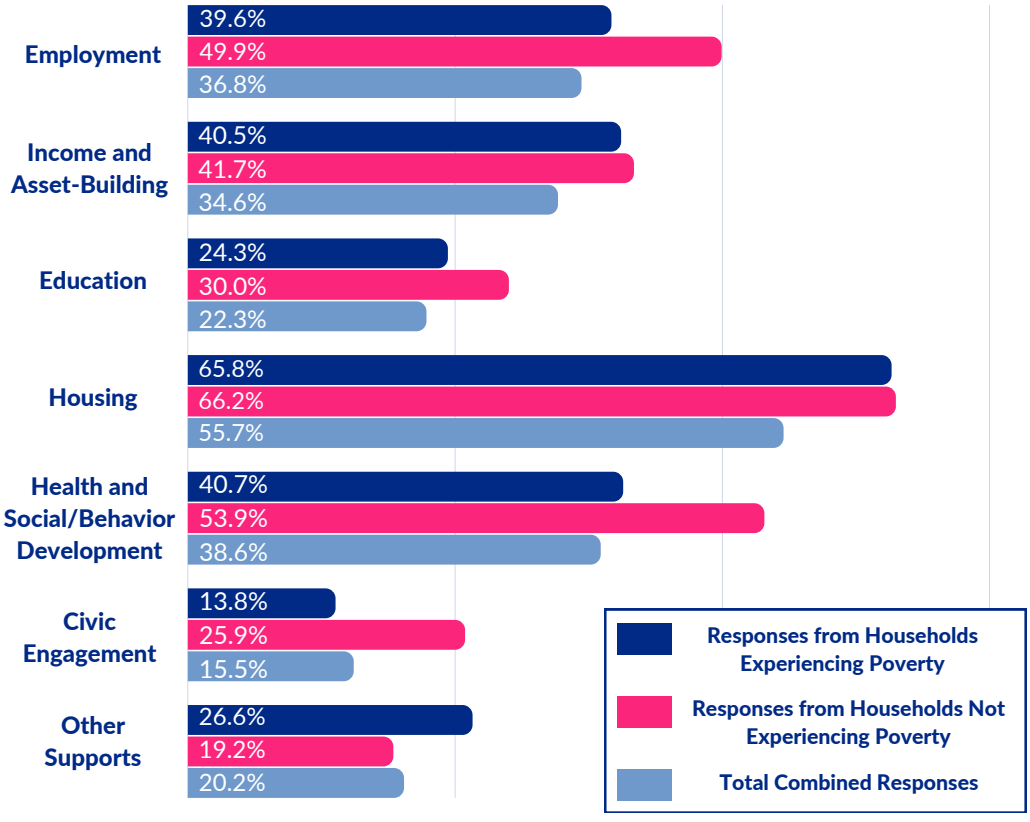
Overall Combined Community Needs

1. **Rental Assistance**
2. **Food**
3. **Dental Insurance/Affordable Dental Care**

"Rental Assistance" remains the first priority for respondents experiencing poverty across the state.

"Mental Health Services" was the first priority need for respondents not experiencing poverty.

Statewide Overall Needs By Population Type



The comprehensive needs assessment was accomplished through surveys and focus groups in order to collect both quantitative and qualitative data. The surveys consist of both multiple-choice and open-ended questions with the intention of capturing both quantitative and qualitative data, and the focus groups are used to better understand the depth and breadth of the issue focusing on the collection of qualitative data.
